## Coalition statement- urgent response required

### NYC Protect the Results Coalition Demands the Immediate Removal of Donald Trump

In response to the egregious attack on our democracy in the United States Capitol yesterday, our coalition of nearly 100 New York City activist organizations calls for Donald Trump to be immediately removed from office, and for the New York Congressional delegation to demand that Congress reconvene and introduce Articles of Impeachment

- The New York City Protect the Results Coalition joins Senate Minority Leader, New York Senator Charles Schumer, in demanding the immediate invocation of the 25th Amendment to remove Donald Trump from the Presidency.
- Given the current clear and present dangers, the Coalition demands that Congress immediately reconvene, and that the New York delegation joins Representatives Alexandria Ocasio-Cortez and Adriano Espaillat in supporting an impeachment resolution.
- If the Vice President and his Cabinet refuse to protect America, the Coalition demands that Congress must impeach the President, and the Senate must remove him.
